### July 2022 Park Managers Report

- 1) The last of the safety upgrades to the waterslide have been completed. We are now in full compliance.
- 2) The windstorm on June 28<sup>th</sup> left us without power for 12 hours. Staff did some tree pruning as a result of that storm. One site in B block suffered some minor damage due to a tree top snapping off. These winds came from the opposite direction that we normally encounter.
- 3) All sprinkler systems around the park have been repaired and are operational.

## **SPIDER LAKE SPRINGS CAMPERS ASSOCIATION**

- 4) The front loading washing machine in the lower laundry is out of service. I am hopeful that parts are still available.
- 5) The new chlorinator purchased earlier has now been installed at the upper well.
- 6) The security officers hired for the long weekends have worked out well.
- 7) The rear plate on the company truck was stolen at the end of June. New plates have been purchased.
- 8) Calcium chloride has been applied to the roads.

Since the May long weekend there have been no reports of any vandalism occurring within the park.
